**Our dental
network will
keep you smiling**

Issued July 2019

We want to keep you smiling.

Our dental network gives you better value dental.

Our network of smile.com.au dentists gives members access to lower cost dental care.

If you have extras cover we guarantee you'll save at least 15% off the usual dental fee charged by the network dentist.

If you have Premier, Value or Top Extras or the ADF Total Package Gold, you'll also receive no-gap cover on preventive dental treatment like your annual scale and clean at any network dentist (within limits).

With a national network of more than 1900 dentists across Australia, we've got you covered.

Visit defencehealth.com.au/dental to find your nearest dentist

How does it work?

Your Defence Health extras cover gives you automatic access to the smile.com.au network of dentists.

That means you'll be charged lower fees on dental treatment at a network dentist.

What you'll get

Your benefits work harder at a network dentist. A guaranteed lower fee from the dentist combined with your Defence Health dental benefit equals lower out-of-pocket costs.

- 😊 lower dental fees +
- 😊 no-gap preventive treatment +
- 😊 no-gap mouthguard for kids +
- 😊 hardworking benefits = affordable dental care for the whole family!

Plus, our network dentists offer most extras members 100% back on your annual check-up, scale and clean.*

Some preventive treatments are limited in the number of times they can be claimed in a year. If you do exceed your limits you'll still benefit from the reduced fees offered by our network dentists. Any waiting periods, benefit limits, exclusions, restrictions and service limits will still apply when claiming through Defence Health.

* No-gap preventive dental and no-gap mouthguard for kids applies to Premier, Value and Top Extras and the ADF Total Package Gold. Annual service limits, benefit limits, and initial waiting periods apply on treatment at any dentist.

Claiming at a network dentist is easy

Make sure you see one of the registered smile.com.au dentists at the practice you visit.

When you present your Defence Health member card after treatment, the lower network fees will be applied and then your Defence Health benefit.

If the dentist doesn't have a HICAPS or iSOFT machine, you can

- ▶ Claim through Online Member Services at member.defencehealth.com.au; or
- ▶ Use our Mobile Claiming App; or
- ▶ Download a claim form from defencehealth.com.au

Make sure you've served your waiting periods before visiting the dentist.

You can still choose your own dentist

You'll still receive a dental benefit if you see a non-network dentist.

But at a network dentist you'll combine lower fees with your dental benefit. That's bigger value for you and your family.
